### **Exhibition Application Form**

If you would like to exhibit with us, please familiarise yourself with our guidelines below to ensure that your exhibition idea/project fits within our remit and you are aware of our restrictions.

### **Guidelines**

Thank you for showing interest in hiring the exhibition space at the Free Space Project. Our space is situated on the first floor of Kentish Town Health Centre, a unique and large building offering a range of clinical services. Art has a huge presence in the building and our exhibitions are a key way to engage both patients and the general public in ways of thinking about health and wellbeing. At certain times we may consider hiring out our gallery space to artists that have a particular interest in showing works within a clinically engaged venue.

### **The Work We Show**

As we are based within a clinical setting we focus on showing works that explore health and wellbeing although this is open to interpretation. Previous exhibitions have focused on mental health, disability arts, hair loss, invisible illnesses, light as therapy and motherhood. We are open to all mediums, provided that they can be displayed safely and securely using our system. Works on show must be respectful of our visitors. We are unable to show nudity or works that could be particularly upsetting. Unlike a commercial gallery where visitors choose to enter the building, our visitors are here for various personal reasons and we take that into consideration.

The Free Space Project reserves the right to refuse exhibitions at their own discretion.
